Chapter 01 - Preface

Please read this page before preparing your Blackout product for game play.

The following safety instructions apply to all game operators and service personnel. Specific warnings and cautions will be included throughout this manual.

Use the following safety guidelines to help protect the system from potential damage and to ensure your personal safety:

- Electronic components in the game cabinet run on 110V AC 60Hz (220V/ 50Hz in most of Europe, the Middle East and the Far East delivered units).
- To help prevent electric shock, plug the system into a properly grounded power source. These cables are equipped with 3-prong plugs to help ensure proper grounding. Do not use adapter plugs or remove the grounding prong from a cable. If you must use an extension cable, use a 3-wire cable with properly grounded plugs.
- To help protect your system from sudden increases and decreases in electrical power, use a surge suppressor, line conditioner or Uninterruptible Power Supply (UPS).
- Be sure nothing rests on the system's cables and that the cables are not located where they can be stepped on or tripped over.
- Keep your system far away from radiators and other heat sources.
- Do not block cooling vents.

Precaution for Game Operation

Adrenaline Amusements Inc. assumes no liability for injuries incurred while playing our games.

Operators should be aware that certain health and physical conditions may make people susceptible to injury when playing video games.

Safety

To avoid electrical shock, unplug the cabinet before performing installation or service procedures.

If a power cord is damaged, it must be replaced by the equivalent power cord available from your distributor.

Adrenaline Amusement Inc. assumes no liability for any damages or injuries incurred while setting up or servicing the cabinet. Only qualified service personnel should perform installation or service procedures.

Environmental Conditions

Cabinet is intended for indoor use only. Be sure to keep the cabinet dry and maintain operating temperatures of 59° - 86° (15° - 30°C).

Chapter 02 - Unit Features

Hardware Features

- Multitouch Screen
- 46" transparent Monitor
- Windows based computer
- 12 Prize dispensers
- InfraRed Sensors

Cabinet Facts

Cabinet Dimensions		
Length = 30"	Depth = 32" Weight = 450 lbs	Height = 86"

Shipping Dimensions		
Length = 30"	Depth = 36"	Height = 80" Weight = 450 lbs.

Voltage

Voltage	Operating
110V AC	4 AMP
220V AC	2 AMP

Chapter 03 - Unit Installation

Assembling your Blackout Unit

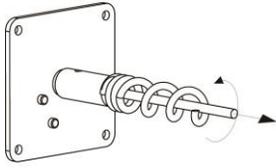

1. Carefully remove the Cabinet from the shipping container, giving yourself enough space.
2. Move the cabinet to the desired location.
3. Lift the top Header to upright position. To do so you will need to press on the spring pins on each side of the hinge.
4. Plug in the power cord on the back of the cabinet.

Chapter 04 – Procedure to refill Prizes

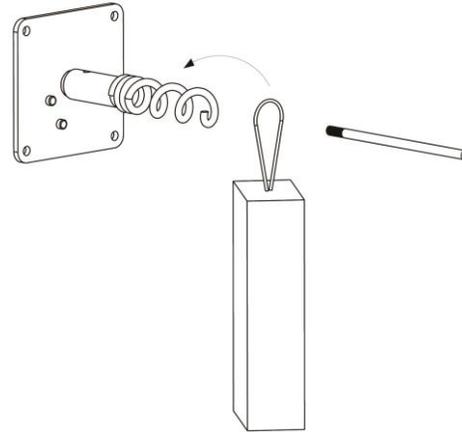

** Very important to perform step 6 and 7*

1. Unlock and open front door.
2. Unscrew the pin in the middle of the prize dispenser.
3. Install prizes on dispenser.
4. Re-install the middle pin to secure the prize in the unit
5. Lock the front door.
6. Access the operator menu using the Operator Button located inside the coin door.
7. Enable all dispensers Loaded by pressing the prize dispenser icon (number 1 to 12). The icon is yellow when enabled and grey when disabled. (see figure 5.1 below).
8. Only the prize dispenser in yellow will be available to players if they win.
9. You can test the sensor using rotor #5. (See figure 5.3 below).
10. Press icon “return to Game” when finished.

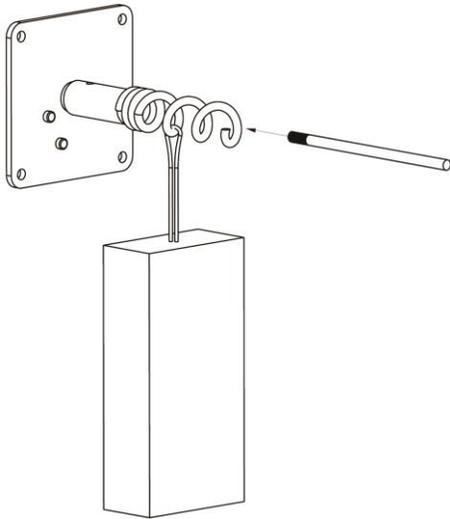

Refilling Prize Dispensers Steps

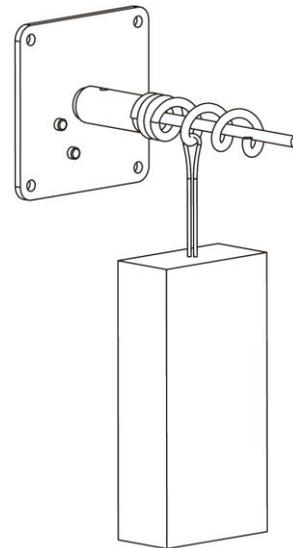

1. Unscrew and pull out the prize Rod

2. Hang the Prize on the Spiral

3 Insert&Screw the Prize Rod

4. The Prize Dispenser is refilled

***NOTE: PLEASE DO NOT HANG THE PRIZE ON THE ROD**

Chapter 05 - Operator Menu, Game Setup

This chapter describes how to use and navigate the Operator Menu to set up your product and adjust all of the game's parameters. To access the operator Menu, use the Operator Button located inside the coin door. To navigate the menu, you can touch the arrows to change the option's value.
